Course content

Why attend

Asset integrity management ensures that equipment and facilities perform their required functions effectively and efficiently while protecting people, the environment and the business. This course covers the principles and practices of integrity management in oil and gas, petrochemical, power and process industries, including design integrity, risk-based inspection, corrosion management, safety-critical elements, management of change and integrity performance indicators. Participants develop an integrity management framework suitable for their facilities.

Loss of containment and major equipment failures can have severe safety, environmental and financial consequences. This course gives you a structured, risk-based approach to managing integrity throughout the asset life cycle and demonstrating control to regulators and stakeholders.

Professional Problems This Course Is Designed to Solve

• Difficulty translating subject knowledge into practical workplace decisions.
• Inconsistent approaches to the activities covered in the course outline.
• Lack of a structured plan for applying and reviewing new skills.

Course methodology

Learning combines technical presentations, case studies of major incidents, risk-based inspection exercises, integrity performance indicator workshops and framework development activities.

Course objectives

By the end of this course, participants will be able to:
• Explain the principles and life cycle of asset integrity management
• Identify safety-critical elements and performance standards
• Apply risk-based inspection and corrosion management
• Manage technical integrity through operations and maintenance
• Control change, deviations and ageing assets
• Monitor integrity performance with leading and lagging indicators

Course content

Target audience

This course is suitable for:
- Asset integrity engineers and managers
- Inspection and corrosion engineers
- Maintenance and reliability engineers
- HSE and process safety professionals
- Operations managers in process industries

Target competencies

Participants will develop competencies in:
- Integrity management systems
- Safety-critical elements
- Risk-based inspection
- Corrosion management
- Management of change
- Integrity performance monitoring

Course outline

Day 1: Asset Integrity Fundamentals

09:00–09:54	Definition and scope of asset integrity
09:54–10:48	Design, technical and operational integrity
10:48–11:00	Lessons from major incidents
11:00–11:30	**Coffee break**
11:30–12:12	Lessons from major incidents (continued)
12:12–13:06	Regulatory and standards framework
13:06–14:00	Exercise: Integrity risk review

Day 2: Safety-Critical Elements

09:00–09:54	Identifying major accident hazards
09:54–10:48	Safety-critical elements and barriers
10:48–11:00	Performance standards

Course content

11:00–11:30	**Coffee break**
11:30–12:12	Performance standards (continued)
12:12–13:06	Verification schemes
13:06–14:00	Workshop: Defining performance standards

Day 3: Inspection and Corrosion Management

09:00–09:54	Damage mechanisms
09:54–10:48	Risk-based inspection methodology
10:48–11:00	Corrosion monitoring and mitigation
11:00–11:30	**Coffee break**
11:30–12:12	Corrosion monitoring and mitigation (continued)
12:12–13:06	Inspection data management
13:06–14:00	Exercise: Risk-based inspection planning

Day 4: Operating with Integrity

09:00–09:54	Maintenance of safety-critical equipment
09:54–10:48	Management of change and deviations
10:48–11:00	Ageing assets and life extension
11:00–11:30	**Coffee break**
11:30–12:12	Ageing assets and life extension (continued)
12:12–13:06	Competence and organisational factors
13:06–14:00	Case study: Integrity failure investigation

Day 5: Integrity Management Systems

09:00–09:54	Key performance indicators
09:54–10:48	Audits and assurance
10:48–11:00	Integrity reporting to management

Course content

11:00–11:30	**Coffee break**
11:30–12:12	Integrity reporting to management (continued)
12:12–13:06	Continuous improvement
13:06–14:00	Capstone: Asset integrity management framework

The timings provided are estimates and may vary depending on the number of participants and the discussions taking place during the sessions. They are indicative only and do not constitute a binding commitment.

Dates, venues and fees

Current published course plans. Fees are per participant in EUR, excluding unconfirmed taxes.

Venue	Start date	End date	Fee (EUR)
Singapore Confirmed dates	9 Nov 2026	13 Nov 2026	**€5,640.-**
