Why attend

Air cargo moves high-value and time-critical goods worldwide under strict safety and security rules. This course covers air cargo operations: market structure, booking and capacity, ULDs and build-up, dangerous goods, security screening, documentation, special cargo such as pharma and perishables, and aviation spare parts logistics.

Air cargo errors cause delays, fines and safety risks. You will learn how air freight works end to end.

Professional Problems This Course Is Designed to Solve

• Difficulty translating subject knowledge into practical workplace decisions.
• Inconsistent approaches to the activities covered in the course outline.
• Lack of a structured plan for applying and reviewing new skills.

Course methodology

Process walkthroughs, documentation exercises, case studies and regulation briefings.

Course objectives

By the end of this course, participants will be able to:
• Explain the air cargo market and players
• Manage bookings, capacity and pricing
• Understand ULDs, build-up and weight and balance basics
• Apply dangerous goods and security requirements
• Handle special cargo
• Manage aviation spare parts logistics

Target audience

This course is suitable for:
• Air cargo and freight forwarding staff
• Airline cargo personnel
• Ground handling supervisors
• Logistics managers shipping by air
• Aviation maintenance logistics staff
