Why attend

Extreme weather events such as floods, heatwaves, storms and droughts are increasingly disrupting operations, supply chains, infrastructure and workforces. This course helps organisations assess physical climate risks and build practical adaptation and resilience plans. Participants learn to use climate scenarios and hazard data, assess vulnerability of sites and assets, prioritise adaptation measures, integrate climate risk into business continuity and investment decisions, and report on climate resilience to stakeholders.

Climate-related disruption is no longer a distant scenario; it already affects many organisations every year. This course gives you structured methods to understand your exposure, prioritise adaptation investments and strengthen continuity plans before the next extreme event.

Professional Problems This Course Is Designed to Solve

• Difficulty translating subject knowledge into practical workplace decisions.
• Inconsistent approaches to the activities covered in the course outline.
• Lack of a structured plan for applying and reviewing new skills.

Course methodology

The course combines expert sessions with climate data exercises, site vulnerability assessments, adaptation option appraisal, tabletop exercises and development of an adaptation plan.

Course objectives

By the end of this course, participants will be able to:
• Explain physical climate risks and their business impacts
• Use climate scenarios and hazard data in risk assessment
• Assess vulnerability of sites, assets, people and supply chains
• Identify and prioritise adaptation measures
• Integrate climate risk into business continuity and investment planning
• Report climate resilience to boards, investors and regulators

Course content

Target audience

This course is suitable for:
- Business continuity and risk managers
- Sustainability and ESG professionals
- Facilities, asset and infrastructure managers
- Supply chain managers
- Insurance and finance professionals

Target competencies

Participants will develop competencies in:
- Physical climate risk assessment
- Climate scenario analysis
- Vulnerability assessment
- Adaptation planning
- Resilience integration
- Climate risk reporting

Course outline

Day 1: Understanding Physical Climate Risk

09:00–09:54	Acute and chronic physical climate risks
09:54–10:48	Observed impacts on organisations
10:48–11:00	Regulatory and investor expectations
11:00–11:30	**Coffee break**
11:30–12:12	Regulatory and investor expectations (continued)
12:12–13:06	Links with transition risk
13:06–14:00	Exercise: Identifying climate hazards for your operations

Day 2: Climate Data and Scenarios

09:00–09:54	Climate scenarios and time horizons
09:54–10:48	Hazard maps and data sources
10:48–11:00	Interpreting climate projections

Course content

11:00–11:30	**Coffee break**
11:30–12:12	Interpreting climate projections (continued)
12:12–13:06	Limitations and uncertainty
13:06–14:00	Lab: Using climate data for a site assessment

Day 3: Vulnerability and Impact Assessment

09:00–09:54	Exposure, sensitivity and adaptive capacity
09:54–10:48	Assessing sites, assets and infrastructure
10:48–11:00	Workforce and supply chain impacts
11:00–11:30	**Coffee break**
11:30–12:12	Workforce and supply chain impacts (continued)
12:12–13:06	Financial impact estimation
13:06–14:00	Workshop: Vulnerability assessment for a facility

Day 4: Adaptation and Resilience Measures

09:00–09:54	Engineering, nature-based and operational measures
09:54–10:48	Cost-benefit and prioritisation
10:48–11:00	Insurance and risk transfer
11:00–11:30	**Coffee break**
11:30–12:12	Insurance and risk transfer (continued)
12:12–13:06	Integrating adaptation into business continuity plans
13:06–14:00	Case study: Recovering from a major flood

Day 5: Governance and Reporting

09:00–09:54	Climate risk governance and ownership
09:54–10:48	Monitoring and early warning
10:48–11:00	Disclosure and reporting frameworks

Course content

11:00–11:30	**Coffee break**
11:30–12:12	Disclosure and reporting frameworks (continued)
12:12–13:06	Continuous review of adaptation plans
13:06–14:00	Capstone: Climate adaptation plan

The timings provided are estimates and may vary depending on the number of participants and the discussions taking place during the sessions. They are indicative only and do not constitute a binding commitment.
