Why attend

A compliance risk assessment shows where regulatory and conduct risks are highest so resources can be focused. This course covers how to identify applicable obligations, assess inherent compliance risk, evaluate control effectiveness, rate residual risk, prioritise actions and use the assessment to plan monitoring and training.

Compliance teams cannot cover everything equally. You will learn to focus on the risks that matter most.

Professional Problems This Course Is Designed to Solve

• Difficulty translating subject knowledge into practical workplace decisions.
• Inconsistent approaches to the activities covered in the course outline.
• Lack of a structured plan for applying and reviewing new skills.

Course methodology

Obligation mapping exercises, risk rating practice, case studies and planning workshops.

Course objectives

By the end of this course, participants will be able to:
• Identify applicable laws and obligations
• Assess inherent compliance risk
• Evaluate control design and effectiveness
• Determine residual risk ratings
• Prioritise compliance actions
• Use results to plan monitoring and training

Target audience

This course is suitable for:
