Why attend

Measuring customer satisfaction accurately is the foundation for improving products and services. This course covers satisfaction measurement: defining what to measure, survey methods, NPS, CSAT and CES, sampling, analysis of drivers, closing the loop with customers and linking satisfaction to business results.

Many satisfaction surveys produce numbers but no action. You will learn to measure in ways that drive real improvement.

Professional Problems This Course Is Designed to Solve

• Difficulty translating subject knowledge into practical workplace decisions.
• Inconsistent approaches to the activities covered in the course outline.
• Lack of a structured plan for applying and reviewing new skills.

Course methodology

Survey design exercises, driver analysis practice, case studies and action planning.

Course objectives

By the end of this course, participants will be able to:
• Define customer satisfaction measures
• Choose suitable survey methods
• Apply NPS, CSAT and CES correctly
• Analyse drivers of satisfaction
• Close the loop with customers
• Link satisfaction to business outcomes

Target audience

This course is suitable for:
