Why attend

Cyber risk is now a board-level issue affecting operations, finances and reputation. This course helps directors oversee cyber risk: understanding threats, cyber risk appetite, security frameworks, reporting from management, incident and crisis oversight, third-party risk, cyber insurance and regulatory expectations.

Boards cannot delegate cyber risk entirely to IT. You will learn the oversight questions and structures boards need.

Professional Problems This Course Is Designed to Solve

• Difficulty translating subject knowledge into practical workplace decisions.
• Inconsistent approaches to the activities covered in the course outline.
• Lack of a structured plan for applying and reviewing new skills.

Course methodology

Board briefings, cyber incident simulations, reporting reviews and case studies.

Course objectives

By the end of this course, participants will be able to:
• Explain the cyber threat landscape for organisations
• Set cyber risk appetite
• Understand security frameworks at board level
• Evaluate management cyber reporting
• Oversee incident and crisis response
• Address third-party risk, insurance and regulation

Target audience

This course is suitable for:
• Directors and board members
• Audit and risk committee members
• Senior executives
• Company secretaries
• Risk and compliance leaders

Course content
