Why attend

Data only creates value when people understand it and act on it. This course teaches professionals how to turn analysis into compelling stories, choose effective visualisations, design clear slides and dashboards and present insights persuasively to different audiences.

Good analysis is often ignored because it is poorly communicated. This course helps you present data in a way that engages decision-makers and drives action.

Professional Problems This Course Is Designed to Solve

• Difficulty translating subject knowledge into practical workplace decisions.
• Inconsistent approaches to the activities covered in the course outline.
• Lack of a structured plan for applying and reviewing new skills.

Course methodology

The course is practical, with chart redesign exercises, storyboard workshops and presentation practice with feedback.

Course objectives

By the end of this course, participants will be able to:
• Understand audience needs and decision context
• Structure insights into a clear narrative
• Select appropriate charts and avoid misleading visuals
• Design clean, focused slides and dashboards
• Use annotation and emphasis to highlight insights
• Present data stories confidently

Target audience

This course is suitable for:
• Analysts and data professionals
• Managers presenting performance information
• Consultants
• Finance and marketing professionals
• Researchers

Course content

Target competencies

Participants will develop competencies in:

- Narrative structure
- Chart selection
- Visual design
