Why attend

Environmental permits, emissions limits, waste rules and reporting obligations apply to many operations. This course covers environmental compliance management: identifying legal requirements, permits and conditions, monitoring and reporting, waste and hazardous materials, incident management, inspections and building an environmental compliance system.

Environmental breaches lead to fines, shutdowns and reputational harm. You will learn to manage environmental obligations systematically.

Professional Problems This Course Is Designed to Solve

• Difficulty translating subject knowledge into practical workplace decisions.
• Inconsistent approaches to the activities covered in the course outline.
• Lack of a structured plan for applying and reviewing new skills.

Course methodology

Legal register exercises, permit condition reviews, inspection simulations and case studies.

Course objectives

By the end of this course, participants will be able to:
• Identify applicable environmental laws and permits
• Build and maintain a legal register
• Monitor and report environmental performance
• Manage waste and hazardous materials compliantly
• Respond to environmental incidents
• Prepare for regulatory inspections

Target audience

This course is suitable for:
• Environmental and HSE managers
• Operations and site managers
• Compliance officers
• Facilities managers
• Sustainability professionals
