Why attend

ISO/IEC 27001 is the international standard for information security management systems. This course explains its requirements and Annex A controls, risk assessment and treatment, statement of applicability, documentation, internal audit, management review and certification preparation, with practical guidance for implementation.

Customers and regulators increasingly expect ISO 27001 alignment or certification. This course helps you understand and implement the standard effectively.

Professional Problems This Course Is Designed to Solve

• Difficulty translating subject knowledge into practical workplace decisions.
• Inconsistent approaches to the activities covered in the course outline.
• Lack of a structured plan for applying and reviewing new skills.

Course methodology

The course uses risk assessment exercises, control mapping workshops, documentation reviews and implementation case studies. It is not a certified lead implementer or lead auditor course.

Course objectives

By the end of this course, participants will be able to:
• Explain the structure and requirements of ISO 27001
• Define ISMS scope and context
• Conduct information security risk assessment and treatment
• Select and justify Annex A controls
• Prepare required documentation
• Plan internal audit, management review and certification

Target audience

This course is suitable for:
• Information security managers
• IT managers
• Compliance and risk professionals
• Quality managers expanding into security
• Internal auditors

Course content

Target competencies

Participants will develop competencies in:

- ISMS implementation
- Risk assessment
- Control selection
- Documentation
- Internal audit
- Certification readiness
