Why attend

Lean principles can transform warehouse productivity, accuracy and safety. This course applies lean thinking to warehousing: identifying waste in receiving, storage, picking and dispatch, 5S, standard work, visual management, flow improvement, daily performance huddles and continuous improvement with warehouse teams.

Warehouses are full of walking, waiting and searching. You will learn to remove waste and engage teams in improvement.

Professional Problems This Course Is Designed to Solve

• Difficulty translating subject knowledge into practical workplace decisions.
• Inconsistent approaches to the activities covered in the course outline.
• Lack of a structured plan for applying and reviewing new skills.

Course methodology

Gemba exercises, picking simulations, 5S workshops and case studies.

Course objectives

By the end of this course, participants will be able to:
• Identify waste in warehouse processes
• Apply 5S and visual management
• Create standard work for key tasks
• Improve flow from receipt to dispatch
• Run daily performance huddles
• Engage teams in continuous improvement

Target audience

This course is suitable for:
