Course content

Why attend

Open banking lets customers share financial data securely with third parties through APIs, creating new services in payments, lending and personal finance. This course explains the regulation, technology and business models behind open banking and open finance, how banks and fintechs build API ecosystems, and how to manage security, consent and partnership risks.

Open APIs are reshaping competition in financial services. You will understand the opportunities and obligations well enough to shape your organisation's strategy.

Professional Problems This Course Is Designed to Solve

• Difficulty translating subject knowledge into practical workplace decisions.
• Inconsistent approaches to the activities covered in the course outline.
• Lack of a structured plan for applying and reviewing new skills.

Course methodology

Regulatory briefings, API walkthroughs, business model workshops and case studies of banks and fintech partnerships.

Course objectives

By the end of this course, participants will be able to:
• Explain open banking regulation and standards
• Describe how financial APIs work
• Identify open banking business models
• Manage consent, security and fraud risks
• Design partnership and developer programmes
• Plan an open finance strategy

Target audience

This course is suitable for:
• Bank and fintech product managers
• Digital banking and payments professionals
• Risk and compliance officers in finance
• IT architects in financial services
• Strategy and innovation teams

Course content

Target competencies

Participants will develop competencies in:

- API strategy
- Regulatory awareness
- Partnership management
- Risk management
- Product innovation
