Why attend

Government departments run many programmes competing for limited budgets and capacity. This course shows how to manage public sector portfolios: aligning programmes with policy priorities, assessing and selecting investments, balancing risk and capacity, monitoring delivery and benefits, and reporting transparently to ministers and oversight bodies.

Without portfolio management, public funds are spread too thinly and priorities blur. You will learn to direct resources to what matters most.

Professional Problems This Course Is Designed to Solve

• Difficulty translating subject knowledge into practical workplace decisions.
• Inconsistent approaches to the activities covered in the course outline.
• Lack of a structured plan for applying and reviewing new skills.

Course methodology

Public sector case studies, prioritisation exercises, portfolio dashboard design and governance simulations.

Course objectives

By the end of this course, participants will be able to:
• Explain portfolio management in a public sector context
• Align programmes with policy priorities
• Assess and prioritise investment proposals
• Balance portfolio risk, capacity and funding
• Monitor delivery and benefits across programmes
• Report portfolio performance to senior decision makers

Target audience

This course is suitable for:
• Portfolio and PMO managers in government
• Programme directors
• Budget and planning officers
• Senior public officials
• Oversight and audit staff

Course content
