Course content

Why attend

Hospitals, data centres and critical facilities depend on standby generators and uninterruptible power supplies. This course covers standby power design concepts, generator sets, automatic transfer switches, UPS types and batteries, testing regimes, maintenance, fuel management and preventing failures when power is needed most.

Backup power that fails during an outage is worse than none. You will learn to keep standby systems ready and reliable.

Professional Problems This Course Is Designed to Solve

• Difficulty translating subject knowledge into practical workplace decisions.
• Inconsistent approaches to the activities covered in the course outline.
• Lack of a structured plan for applying and reviewing new skills.

Course methodology

System walkthroughs, testing procedure exercises, case studies of failures and maintenance planning.

Course objectives

By the end of this course, participants will be able to:
• Explain standby power system configurations
• Maintain generator sets
• Maintain automatic transfer switches
• Understand UPS types and battery care
• Plan load bank and transfer testing
• Manage fuel and readiness

Target audience

This course is suitable for:
• Electrical engineers and technicians
• Facility managers
• Data centre engineers
• Hospital engineering staff
• Maintenance supervisors

Course content

Target competencies

Participants will develop competencies in:

- System understanding
- Generator maintenance
- UPS and battery care
- Testing
- Readiness management

Course outline

Day 1: Standby Power

09:00–10:08	Critical loads
10:08–11:00	System configurations
11:00–11:30	**Coffee break**
11:30–11:45	System configurations (continued)
11:45–12:53	Standards
12:53–14:00	Exercise

Day 2: Generators

09:00–10:08	Engine and alternator
10:08–11:00	Controls
11:00–11:30	**Coffee break**
11:30–11:45	Controls (continued)
11:45–12:53	Maintenance tasks
12:53–14:00	Workshop

Day 3: Transfer Switches

09:00–10:08	ATS operation
10:08–11:00	Maintenance
11:00–11:30	**Coffee break**

Course content

11:30–11:45	Maintenance (continued)
11:45–12:53	Testing
12:53–14:00	Exercise

Day 4: UPS and Batteries

09:00–10:08	UPS types
10:08–11:00	Battery maintenance
11:00–11:30	**Coffee break**
11:30–11:45	Battery maintenance (continued)
11:45–12:53	Monitoring
12:53–14:00	Case study

Day 5: Testing and Readiness

09:00–10:08	Load bank tests
10:08–11:00	Fuel management
11:00–11:30	**Coffee break**
11:30–11:45	Fuel management (continued)
11:45–12:53	Readiness plans
12:53–14:00	Action plan

The timings provided are estimates and may vary depending on the number of participants and the discussions taking place during the sessions. They are indicative only and do not constitute a binding commitment.
